

TURNING SHEEP

1. Trace the pattern on cardstock or large index cards or print on cardstock.
2. Cut out both sides of the sheep and color or decorate by gluing on cotton balls. You will get a better look if you loosen up the cotton balls first.
3. Color or use google eyes for the eyes. You can make ears by shaping bits of cotton into ear shapes and gluing them on.
4. Tape a drinking straw or unsharpened pencil to the back of one of the sheep and glue the other side of the sheep on so that the straw is in between the two.
5. Spread the cotton over the seams.
6. Once your sheep dries, you can use it to discuss conversion: Turn it back and forth between good and bad choices, between God's ways and some selfish things we may want that do not help us in our path to Heaven.
